

Senior Living

Overview

GuestTek® provides innovative technology solutions designed to improve the quality of life for residents in senior living communities. Our services are tailored to meet the needs of older adults, ensuring comfort, safety and connectivity.

Internet

Media

Voice

OneView™ Internet (OVI)

Our custom-designed network is built for the senior living community's needs and unique challenges. With OVI, residents stay connected through their own Personal Area Network (PAN):

- Use the same login credentials for seamless roaming
- Keep data and connections private while minimizing administrative overhead
- Residents are able to connect multiple devices to their PAN (e.g. smartphones, TVs, printers, consoles etc.)

Media via DIRECTV

Make residents feel right at home with customizable media solutions with hundreds of accessible channels through user-friendly interfaces and easy navigation with DIRECTV.

Streaming TV Services

- Provide residents with immediate access to world-class content (TV, movies, news, and premium sports networks)
- Residents have the option to upgrade to the ENTERTAINMENT, CHOICE™, ULTIMATE or PREMIER Packages and can enjoy add-on channels such as MAX, Starz, Cinemax, and MGM+ at discounted rates

Stream Benefits

- Same great DIRECTV packages as direct-to-home for an in-home experience
- Entry-level price points for your property to help increase your revenue
- Easy for residents to upgrade packages for new and legacy properties

Advanced Entertainment Platform

- Provides residents with an enhanced entertainment experience
- Residents can enjoy app-based content from Paramount+ with SHOWTIME On Demand and Music Choice; plus thousands of hours of content through the DIRECTV On Demand app - no password or login required (Netflix subscription/login required)
- Comes with an in-room set-top box and easy-to-clean remote, featuring seamless cloud services to the HD COM Systems

Advanced Entertainment Platform Benefits

- Flexible, cloud-delivered updates
- 4K HDR content
- Customizable Property Information App
- Remotely manageable
- Stream from personal devices
- App-based and On Demand programming
- Live TV

OneView™ Voice (OVV)

Empower residents with crystal-clear calls through reliable connection, simple-to-use systems and 24/7 dedicated support to ensure uninterrupted service. OVV is an advanced cloud-enabled IP phone system designed to meet the changing needs of today's senior living industry. The modular solution is ultra-compact, easy to install and easy to manage with a highly intuitive Customer User Interface.

Additional Benefits:

- Many premium features included at no extra cost
- Built with the latest VoIP and wireless technologies
- System is built with certified, commercially available and energy-efficient hardware
